Dear Year 9 Y-half families,

Re: Another positive Covid-19 case has been identified. Isolation period extended by one day.

We have just been alerted that another student in the year 9 Y-half has been tested positive using two lateral flow devices. They have a PCR test booked to confirm the result, but it is likely that this will come back positive too, as with the previous cases this week.

As a result, the dates for isolation have now changed and your child will need to isolate for one extra day.

The new days/dates of isolation are:

10 days starting from the 30th April 2021 until the 9th May 2021 (out of isolation on Monday 10th May 2021)

We thank you in advance for your understanding and will update you should this change. As a reminder, please book your child in for a PCR laboratory test as soon as possible and email us at the following email address if the result is positive:

covid.bbs@taw.org.uk

Best wishes and stay safe,

Krissi Carter
Principal
